**PERFORMANCES**

MOTUL MULTI CVTF is a high tech multi vehicles CVT fluid suitable for a wide range of CVT-equipped passenger cars, including belt-CVT and chain-CVT design.

Thanks to its exclusive and dedicated formula, MULTI CVTF:

- Allows fuel economy for cars fitted with CVT automatic gearboxes by providing optimum metal-to-metal friction.
- Provides high anti-shudder performance to avoid engine vibrations for increased comfort.
- Protects gears that are more and more numerous, compact and heavily loaded.
- Gives superior automatic transmission response through smooth shift feel and reduced shift time lag.
- Improves CVT reaction at cold temperature.
- Extends life time duration due to high shear stability at hot temperature and high oxidation resistance.
- Increases wear protection of belt, chain and pulleys.
- Anti-corrosion, anti-foam.

**RECOMMENDATIONS**

Can be mixed only with similar lubricants.
